

Comfort Mattress

“COMFORT MATTRESS” (NON-FLIP)

The Comfort Mattress is designed for short-term use and ensures guests enjoy their stay. The luxurious damask quilt adds a touch of elegance to the design and makes it comfortable to lie on. This sofa mattress conveniently folds inside with great ease and is the perfect addition to your sofa or sectional, preventing the need for additional expenditure.

The Comfort Mattress in conjunction with the Residential Sofa Sleeper System is offered as a standard option in all Statum Designs' sofa sleeper beds, in either a Double or Queen size.

- 1/2" Foam Topper Support

Residential Sofa Sleeper System

Engineered Low- Profile Linkage

Keeps all metal parts below the mattress line, while being the easiest in the industry to operate.

Double- Locking TV Headrest

Provides added comfort while lounging or watching TV by raising the upper body. To reduce field failures, the headrest also restricts the unit from being cycled while in the "up" position.

Body- Support Tube and Direct- Attach Wires

Together they enhance support in the body section to eliminate sagging. The welded offset tube keeps the unit square and enhances unit strength.

Contoured Seat Section

Offers a wider seating area by allowing seating close to the arm.

Seat-Support Wires

Provides support while sleeping, plus adds durability to the overall unit. Support wires also give the quality feel of stationary seating.

All- Round Tubular Frame Construction

Provides a smooth and visually appealing look with improved safety (eliminated pinch points) and comfort in the seated position.

Pro- Deck

Two-ply ballistic decking material enhances durability and visual appeal.

Dual One-Piece Round Tubular Legs

Provides enhanced stability and strength, allowing the unit to be operated from the centre or side position.

Anti-Tilt

A necessary safety feature, keeping the unit in contact with the floor at all times in the open position.
